and General Manager

Subject : [] Rear-Projection Viewer

Gentlemen:

In the [] document [] 65-184, your organization proposed to build a Rear-Projection Viewer for NPIC. After several discussions and proposal amendments, an acceptable proposal was achieved, and internal approval steps were taken that have led to the current negotiation situation.

The proposal specified that [] would be willing to accept a fixed price contract; however, it was understood that some of the costs for this initial prototype would be borne by [] to be amortized over any production units.

This document confirms the Government's position as explained to members of your organization during previous discussions. The Government can not guarantee or give any assurances that any production units will be purchased. This prototype is being built for evaluation in an operational situation; however, there is no way that we can anticipate its acceptance since this is a competitive field and there are many variables which must be considered during the evaluation process.

X1

[Redacted]

In view of these circumstances it must be clearly understood that although it is not our intention to have developed one-of-a-kind equipment, the Government can make no commitment whatsoever regarding the likelihood of requirements for, or suppliers of, subsequent viewers of this type.

Very truly yours,

[Redacted]

NARRATIVE REPORT ☐ INTERIM ☒ FINAL

1. Approval has been obtained within NPIC to accept the contractor's offer to terminate this contract at no cost to the Government.
2. No deliverable items have been received under this contract. Because the contract is being terminated without cost to the Government, this is expected.
3. The contractor's overall performance is only minimum acceptable because the contractor failed to meet the technical specifications of even the first phase. This does not indicate that he did not make a good faith attempt to try to satisfy those specifications, yet it does reflect his desirability of not continuing the effort in view of the fact that there was a risk of his losing money on the job.
